## UGLY LOOK TO LATEST FROM MEXICO CITY

**Huerta Puts Troops About Chamber of Deputies—Latter Said to Have Threatened Departure for Safety**

**Big Battle Raging in Chihuahua—Orozco and Salazar Reported to Be Under Federal Death Sentence**

MEXICO CITY, Mex., Oct. 10.—The chamber of deputies is surrounded by federal troops tonight and several hundred others are inside the building. It is reported that Huerta intends to dissolve the body.

Another version of the affair is that the deputies purposed to carry out their threat to abandon the capitol owing to a "lack of guarantee of personal safety," and the Huerta's action is intended to prevent them leaving.

EL PASO, Oct. 10.—Battle between 2,000 federal troops under Gen. Carrasco, Manillo and Salazar, and the rebel column of Generals Chao and Hernandez began this morning at Diaz, 25 miles north of Jimenez, according to an official message from Gen. Carrasco, of Chihuahua City, to Juarez federalists. Juarez military authorities had been unable to obtain details of the fighting up to a late hour.

EL PASO, Oct. 10.—Friends of Gen. Pascual Orozco and Gen. Ynez Salazar, ex-convicted commanders now in command of federal forces, received advice from Chihuahua today that both were condemned to death for alleged disloyalty to the federal government. Salazar is with his army. Orozco never left Chihuahua City.

### HUERTA DEMAND DENIED

WASHINGTON, Oct. 10.—Castillo Bello, governor of Campeche and prominent Mexican constitutionalist, was discharged by the U. S. court at New Orleans, the Huerta government's application for his extradition being denied.

### MACKAY-BLAKE SCANDAL

Another Chapter Opened in Filing of Suit for Divorce.

NEW YORK, Oct. 10.—Mrs. Joseph A. Blake, wife of an eminent surgeon, today filed suit for separation for more than three years, on a charge of non-support the last three months.

Mrs. Blake recently sued Mrs. Clarence H. Mackay, wife of the head of the Postal Telegraph & Cable Co., for \$1,000,000 for alleged alienation of Dr. Blake's affections. The present suit for separation is the outgrowth of the former suit, although it was never brought into court.

Mrs. Blake seeks alimony, in no specific sum for the support of herself and two sons, the elder of whom is in college.

**CUT SURPLUS, CUT DIVIDEND**

Lovett Makes It Plain That U. P. Stockholders Can't Both Eat and Keep.

NEW YORK, Oct. 10.—Robert S. Lovett, chairman of the board of directors of the Union Pacific, made plain today that if at any time the directors saw fit to distribute all or part of the \$90,000,000 surplus now on hand, such distribution shall be accompanied by a cut in regular dividends.

"Union Pacific directors," said Lovett, "at no time contemplated distribution of assets, either in cash or securities, without a corresponding reduction of dividend."

### WEATHER REPORT

For Southern Arizona—Fair and cooler. In the northern sections, rains and frost. Bisbee temperature yesterday, high, 72, low, 57. No precipitation.

Holding that state has no power to regulate interstate commerce, supreme court of Minnesota hands down an opinion which may affect establishment of state rates under cashman law.

## Culebra Cut Where Flood Linked Canal

## Over Land and Under Sea, President Sends Flash—A Few Seconds Later, Success is Told

WASHINGTON, Oct. 10.—A momentary touch of a key by President Wilson today sent a flash through continuous telegraph and cable connections of 4,000 miles, setting off the gigantic blast of dynamite which exploded the Gamboa Dike, the last great physical barrier to water communication through the Panama Canal.

The extraordinary feat of telegraphy over land and under sea was especially planned for the occasion. A few seconds later came a message informing the president the explosion was successful. Besides the wreckage of Gamboa Dike two earth slides must be cleared away before

boats can pass from ocean to ocean. Engineers at the dike were given a signal to be in readiness for the flash a few moments before 2. After twenty seconds the president closed the key and sent the current into the dynamite apparatus.

"It's all over," said the president, smiling. "Gamboa is busted."

### WITNESSED BY THOUSANDS.

PANAMA, Oct. 10.—Four thousand citizens of Panama, Colon and the Canal Zone witnessed the demolition of the Gamboa dike. The two remaining sections of the barrier will be dynamited at some future date.

PANAMA, Oct. 10.—J. Frank Houston, who, last February, killed his fellow canal worker Harry Stern, whom he accused of ruining his home, will be given his freedom tomorrow, after having spent nine months in prison. His release is the result of a pardon granted him by the Department of Civil Administration in the Canal Zone upon order of Col. Goethals. The trial judges condemned Houston to ten years in prison. At the time the public was greatly incensed because he was not given a jury trial, and the action of Col. Goethals in freeing Houston had caused great satisfaction among all classes here.

## LANE SAYS HUNDRED MILLION EXPENDED ON LANDS WOULD BE WELL

WASHINGTON, Oct. 10.—The government could expend profitably in ten years a hundred million dollars in the reclamation of the arid, semi-arid, and swampy lands located in that part of the country west of the Missouri river, said Secretary Lane, of the department of the interior, today, on returning from an extended trip through the west.

"The lands once reclaimed could be divided in farms of 30 to 60 acres and every one would be taken up promptly," Lane added. "This land necessarily must be reclaimed by the government, because private reclamation projects generally have proved failures, except in small tracts."

### FINANCE IN WOMAN'S CAUSE

Mrs. Shaw Will Not Welcome Mrs. Pankhurst Because of Money Difference

NEW YORK, Oct. 10.—Dr. Anna Howard Shaw, president of the National Woman Suffrage association, cancelled today her engagement to speak at a meeting arranged to welcome Mrs. Pankhurst next week.

Dr. Shaw said her unwillingness is due to the fact that while Mrs. Pankhurst is guaranteed \$15,000 and a part of the gate receipts, she is unable to procure a guarantee of \$1,000 for her cause.

### TO STUDY AMERICAN PRISONS.

NEW YORK, Oct. 10.—The four commissioners appointed by the German government and sent to this country to make a thorough study of American prisons are due to arrive here before the end of the week and everything is in readiness to receive them. Orlando P. Lewis, the general secretary of the Prison Association of New York, who was asked by the German government to arrange the itinerary for the commissioners, has completed his plans and arrangements and under his guidance the visitors will make a rapid tour of about 2,000 miles and will be given an opportunity to inspect the best and also the worst of the American penal and reformatory institutions.

New York Herald's poll of mayoralty situation shows Judge McCall and John Purroy Mitchell running about even as candidates.

### ANOTHER NEW HAVEN WRECK

WESTFIELD, Mass., Oct. 10.—In a head-on collision on the Berlin branch of the New Haven between a steam train and an electric car to night, Ralph A. Blydenburgh, a newspaper man from Middletown, was fatally injured.

### CALL DELEGATES FOR ARIZONA GOOD ROADS

Meeting of Association Will Be Held in Phoenix on November 5.

The annual meeting of the Arizona Good Roads Association is called to be held at the Board of Trade rooms, Phoenix, on Wednesday, Nov. 5, at 10 o'clock a. m.

Each county board of supervisors is entitled to and requested to appoint 2 delegates, each incorporated city or town 2 delegates, each board of trade and civic body 2 delegates, each local road association 2 delegates, each automobile club or association 2 delegates.

It is earnestly hoped that delegates be selected who will be in attendance, as far as possible in order that a full representation may be present.

It is desirable, in addition, to the election of the Board of Directors and Officers, to consider the following subjects:

1. Constitutional amendment to authorize a bond issue for the construction and maintenance of roads.
2. Affiliation with the National Highway Association.
3. Designation of a certain day or days in each year for voluntary road work throughout the state.
4. Transaction of such other business as may properly come before the convention.

This meeting is called to take place during the state fair, when it is hoped, it will be more convenient for the attendance of delegates.

### REAR ADMIRAL WARD RETIRES

WASHINGTON, D. C., Oct. 10.—Having reached the age limit for active service, Rear Admiral Aaron Ward, one of the best known officers of the navy, was placed on the retired list today. Rear Admiral Ward is a native of Philadelphia and a graduate of the United States Naval Academy of the Class of '71. He commanded the Wasp in the war with Spain and was advanced in grade for conspicuous service in battle. Last year he was in command of the Dreadnought division of the Atlantic Fleet, from which command he was transferred to the post of supervisor of the harbor of New York.

## ADOLPHUS BUSH DIES ABROAD—BREWSTER HAD BEEN SICK OF DROPSY

LANGENSCHWALBACH, Prussia, Oct. 10.—Adolphus Bush, St. Louis brewer, died here today.

ST. LOUIS, Oct. 10.—A telegram was received tonight announcing the death of Adolphus Bush, by Adolphus Bush, III, a grandson, from his father, August A. Bush. The message said: "Father passed away peacefully at 8:45 o'clock." This would be 1:15 St. Louis time.

Bush has been a sufferer of dropsy for seven years, but when his son August A., left here a few weeks ago to join him at Castle-on-Rhein, he did not know his father was dangerously ill.

Fred Merk, who injured ankle still caused him to limp perceptibly was directly responsible for breaking through the coat of whitewash, with a home run wallop that scored 2. But the Giants' rally fell short one point. They failed to tie in the next and the game was soon over.

## REVENUE PLUM MAY GO TO NEW MEXICO

PHOENIX, Oct. 10.—Unless J. H. Fleming, the well known rancher of Phoenix, is appointed collector of internal revenue for the district of Arizona and New Mexico, the appointment, which is one of the best in the southwest, carrying with it the collection of the income tax, will go to a New Mexico democrat.

At present there are two known candidates in the field, Ed Shaw and Fleming. Fleming, however has one over on Shaw, because he is a brother-in-law of the Secretary of the Treasury McAdoo, and has recently returned from a trip to Washington, where he called and was promised the appointment to succeed Hero, of Santa Fe, who now holds down the position, providing he received the endorsement of Senators Ashurst and Smith. Thus far Ashurst has endorsed Fleming, while Smith has held out for Shaw. Those in the know class now say unless Smith coincides with Ashurst the appointment will go to a New Mexico man.

### CLAYTON MUST STAY.

WASHINGTON, Oct. 10.—President Wilson wrote a personal letter today to Representative Henry D. Clayton, of Alabama, who is a candidate for the senate, telling him it is indispensable to carrying out the democratic party's anti-trust program or have him remain in the house.

## ONE MORE TO GET PENNANT FOR PHILLY

**Giants Made Tremendous Rally Yesterday When Game Seemed Hopeless in Sixth—Was Thrilling**

**Bender Taken in Camp for Short While—Philadelphia Fans Held Breath Through Some Tense Minutes**

PHILADELPHIA, Oct. 10.—But one victory stands between the Philadelphia Athletics and the world's championship tonight, for they defeated the New York Giants at Shibe Park this afternoon 6 to 5 in the fourth game of the series.

Before the contest was clinched, more than 60,000 Quaker City fans suffered a period of anxious suspense that will keep the Giant's eleventh hour batting rally green in their memory for some time to come. The game efforts of the National League champions to overtake their rivals in the final innings changed the entire complexion of the battle, lifting what appeared to be a one sided match into a real contest, which hung in the balance until the last man was put out. Demaree received a warm welcome at the start, but not until the second inning did the first Athletic cross the plate.

The desperate but futile Giant rally came like a bolt from a clear sky. "Chief" Bender, the Chippewa Indian master of the mysterious curves and breaks, held the Giants runless six innings. Already the fans filling every seat in the stand and bleachers, exulted in the downfall of New York. Bender was pitching consistent ball, not a single danger signal was in sight. Suddenly the Giants were transformed from hitless weaklings to real Giants, who thundered the speed and slants of the Indian twirler to all parts of the park.

In the lucky seventh a storm of hits burst upon the astonished Athletics before the Aborigine and his fellow players recovered, three Giants crossed the plate. The fusillade continued until the next session, when two more scored and the team which but a few moments before was apparently outclassed, was battering down the last defenses of the Mackmen.

Fred Merk, who injured ankle still caused him to limp perceptibly was directly responsible for breaking through the coat of whitewash, with a home run wallop that scored 2. But the Giants' rally fell short one point. They failed to tie in the next and the game was soon over.

Snodgrass limped slightly as he walked to the plate to open the fourth game. The New York center fielder raised a high foul, which Baker gathered in without effort. Doyle sent a fly to Strunk, and Fletcher ended the inning by grounding to Barry, who threw him out at first.

Demaree, although starting his first World's Series game, did not appear nervous. Murphy lifted the second pitched ball to deep right center, of which Snodgrass made a fine catch despite his limp.

Clayton, who has hit safely the first time in all the present World Series games, sent a terrific drive down the right field foul line for three bases. It looked like a sure run for the Athletics, with heavy artillery coming up. Collins chopped a ground to Merk, who scooped up the ball and made a lightning throw to McLean at the plate to catch the flying Oldring. The play was close, but Umpire Egan called Oldring out, the latter protesting vigorously. Collins stole second but was left there when Baker fouled to Shafer. Demaree was given a vigorous hand by supporters of the Giants.

The first run of the game came in the second, after Snodgrass, owing to his Charley horse, failed to reach McInnis, Texas leaguer. Barry shot a solid drive down the left field line for two bases, McInnis scoring in the third, Snodgrass suffering from his "Charley Horse" was taken out and Shafer sent to center, Herzog taking third. There was no scoring in that period, but in the fourth the Athletics had a big inning.

## Yuan Shi Kai Inaugurated President China

Yuan Shi Kai.

PEKING, China, Oct. 10.—Yuan Shi Kai went today into office as the first president of the Chinese republic. The inauguration, surrounded by Eastern brilliance, was attended by throngs of distinguished Chinese, foreign officials, diplomats and military officers.

### TO A DRAW.

DENVER, Colo., Oct. 10.—Eddie Camp, of San Francisco, and Frankie Burns, of Jersey City, fought 15 rounds to a draw tonight.

## STEAMERS CROWDED TO LIMIT WITH REFUGEES FROM STRIKEN NOME

SEATTLE, Oct. 10.—A dispatch from the steamship Victoria, now at Nome, says that application for passage exceeds her capacity and that more people will be left when she sails than can be taken on the Corwin, the revenue cutter, and the steamship Neptune, which entered Peking sea today. The Senator sailed from Nome today with all accommodations taken. The Victoria will probably return to Nome after loading lumber and supplies here.

### SNOWING IN NOME.

NOME, Oct. 10.—Snow continued to fall today, the long Arctic winter having begun. 500 whites and 200 Eskimos are homeless and destitute. 600 houses were destroyed in the storm. Snow will prevent further salvage from the beach.

### A CATHOLIC GOLDEN JUBILEE

SPOKANE, Wash., Oct. 10.—Under the auspices of the Gonzaga University of this city an interesting celebration was held today in honor of the golden jubilee of the planting of the Catholic faith in this section of the country. The central figure in the celebration was the venerable Father Joseph Caruna, who was the very first Catholic missionary among the Indians of the Pacific Northwest, and recognized as the founder of the Catholic faith in what was then known as Oregon. It was fifty years ago today that Father Caruna baptized seventy-five Indian children, members of the Coeur d'Alene tribe, the baptism being held on the site now occupied by the Northern Pacific railway's passenger station in this city.

### CUBA CELEBRATES

HAVANA, Oct. 10.—All public buildings were closed today and business to a great extent suspended in honor of the forty-fifth anniversary of the beginning of the great struggle for independence which was begun by the Cubans in 1868 and which continued without interruption until 1878. Many buildings are handsomely decorated with Cuban flags and the public squares and the principal streets are crowded with crowds in festive attire. Band concerts and speechmaking constitute the feature of the public celebration.

## GAINES DOES NOT BELIEVE RESULTS HAD

**Asserts in Report to Taxpayers' Association That Road Machinery Fails of Efficiency—For Contracts**

**Report on Expenditures of Money Shows Bisbee Getting the Little End—Northern Part of Co. Gets Most**

Secretary J. N. Gaines of the Coconino County Taxpayers association has prepared a detailed report upon county expenditures for roads during the first 9 months of the present year, showing in detail in especial localities and in what amounts the road fund has been expended. This he details in a table that is annexed to his report, which is largely explanatory of the tabulated statement and in which he also gives his opinion of the most economical methods for road construction and use of the road machinery which has been purchased this year and operated on the Forest Gleason road construction.

It is interesting to learn from the report of Mr. Gaines that Douglas has received thus far in 1913 the benefit of road work that cost 50 per cent more than the expenditures for the benefit of the Warren District and Naco combined. To the amount of \$283.57 charged to Douglas in the report there should be added the expenditures on the Douglas to Light road \$875.45 and the Whitewater bridge \$151.25, which makes the total \$1,310.27, while to the Warren District and Naco combined there is charged only \$247.88, showing that there has been spent for Douglas an excess over the Warren District and Naco of \$1,062.39.

Combining the Douglas and Bisbee figures and comparing these with expenditure elsewhere, leaving out the Forest to Gleason road and east of road machinery and the Hereford bridge, it appears that the rest of the county has had disbursed upon its roads nearly twice as much as the southeastern corner has received, the figures being \$118,771.11 and \$63,471.35. As ultimately Bisbee and Douglas will be indirectly benefited by the Forest to Gleason road in connection with other sections of the county, and as this corner of the county is now benefited by the Hereford Bridge, these costs are excluded from the figures.

In his report Mr. Gaines states that he has segregated the figures so far as the warrants showed where work was done. In other instances he has been able to learn where they should be placed through outside inquiry. He adds that he has not been able to traverse the whole county and determine what benefits were derived from the work but that his report enables taxpayers to determine whether they have received value.

As to the Forest to Gleason road, his report contains a copy of the estimate of the County Surveyor before the work was begun, which showed an approximate cost of \$11,577.05 and an itemized account of the expenditures made on that road which shows \$148,074.32 for labor and camp maintenance but does not include the cost of steel in bridges and culverts. The surveyors estimate for clearing, grubbing and earth removal was \$10,800.

The report states that Mr. Gaines in an article for publication discussed the contract plan which he favors, and he believes the completion of the Gleason road will furnish more support for his contention.

The report tells of the purchase of a traction engine for \$2975 and an elevating grader for \$8314. Relative to the road machinery Mr. Gaines tells of visiting the camp with two of the supervisors. He believes the machinery unsuited for the character of work which it is employed. He says: "This would be a serviceable outfit where there are no rocks or stumps, nothing but soil and the surface level. A steam shovel were better in most of the ground where this machinery has been used." He says that the larger part of the cost
